## SUMMARY

Known for problem-solving skills and a commitment to delivering high-quality results in dynamic environments.

## EXPERIENCE

### Software Development Intern

Dabotics India Private Limited

07/2024 - 08/2024

https://dabotics.com/September/RakeshRamanojGupta.png

- Developed and integrated frontend features using React, and implemented backend API calls for seamless data interaction.
- Prepared documentation for project workflows and collaborated with senior developers.

## PROJECTS

### Task Management App

https://github.com/Rak-Code/TaskManagementApp

Developed a robust Task Management Application that allows users to efficiently create, update, and delete tasks. The application features a React frontend, Node.js backend, and MySQL database for seamless task management and data persistence.

#### Technologies Used:

- Frontend:** React.js, Tailwind CSS
- Backend:** Node.js, Express.js
- Database:** MySQL

#### Key Features:

- CRUD Operations:** Full support for creating, updating, and deleting tasks.
- User-Specific Data:** Each user has a unique set of tasks with data segregation.

### SecureAuth Login System

https://github.com/Rak-Code/LoginRegisterPageWithBackend

Developed a comprehensive authentication system using React.js, focusing on seamless frontend and backend integration. Created a responsive login interface with React.js and Tailwind CSS, built secure server-side operations with Node.js and Express.js, and managed user data with MongoDB.

#### Technologies Used:

- Frontend:** React.js, Tailwind CSS
- Backend:** Node.js, Express.js
- Database:** MongoDB

### Data Visualization Dashboard

https://github.com/Rak-Code/ReactDashboard

The dashboard provides interactive and visually appealing charts and graphs to represent various datasets.Developed a responsive data visualization dashboard application using React.js

**Technologies Used:** React.js, HTML, CSS, Tailwind CSS,Chart.js

## EDUCATION

### Master's Degree in Computer Science

Kishinchand Chellaram College

2024 - 2026 Churchgate,Mumbai

### Bachelor's of Science in Information Technology

Chetana Institute of Management and research College

2021 - 2024

CGPA  
8.83 / 83%

## SKILLS

Frontend

HTML, CSS, React, Javascript

Backend

NodeJs, Express, Python

Database

MySQL, MongoDB, Postgre SQL

Additional

Git, Github, Version Control

## TRAINING / COURSES

Full Stack Bootcamp by Angelina 2023

Data Manipulation in Python: Numpy & Pandas

## INTERESTS

Learning new technologies, participating in coding challenges, attending tech conferences etc
